

# bioneer · Your Partner in Biotechnology

Dear Client,

I am contacting you, because of your role as a key decision maker within recombinant protein expression. Bioneer provides a unique Gram positive bacterial expression system - the [P170](#) expression system - which offers the following benefits;

- Auto-inducible promoter avoiding addition of inducer
- Secretion of recombinant protein product into the growth medium
- Endotoxin free production host
- No inclusion body formation
- Easy scalability
- New innovative fermentation technology, Reverse Electro Enhanced Dialysis (REED), leading to ten-fold higher production yields
- Production yields exceeding 2 g/L of recombinant protein

Read more about the **P170** expression system [here](#) (link to Bioneer's web site)

Please click this [link](#) to download a pdf file containing additional information on the P170 expression system.

I look forward to hearing from you.

Best regards,

Niels Skjærbæk
